

Today is a big day!

We're thrilled to announce that we have closed our first investment round, led by dfin Holding with participation from EFG Hermes, Marakez for Development and notable angel investors.

Through this strategic consortium of investors, we target to catapult the growth of KIWE by deploying dfin's tech-based financial services portfolio, utilizing EFGs' Valu as a key payment method and to roll out across Marakez's portfolio of commercial and residential projects – a perfect fit to help drive our mission towards a stronger E-payments future, alongside current investor EFG EV Fintech.

KIWE is on a quest to create a cashless ecosystem through a comprehensive merchant network, providing customers with the safest, simplest, and most fun payment experience possible. We are strong believers of empowering freelancers and business owners by helping them identify their targets, level up their customer experience, and accept online/offline payments.

Our vision is for KIWE to become a verb interchangeable with any word that speaks payments. We strive to have our customers reach out to their phones instinctively whenever a receipt is printed, a check arrives to the table, or a friend's pay-back is due.

We strive to have our economy, along with its sectors, a contactless, cashless pioneer in the payments industry, adhering to the Central Bank of Egypt's (CBE) regulations and in line with the state's digital transformation policy. CBE's efforts to boost E-payments have been unprecedented, calling out fintechs, supporting them and facilitating communication with key financial institutions.

At Kiwe, we believe it's time for Gen Z to manage their finances in an easier, faster and a social way. We cannot wait to show you what's coming next. And we promise, the best is yet to unfold.

Digital Finance Holding (dfin) is a tech-based financial services platform. EFG Hermes is one of MENA's largest financial services companies. Marakez is a leading mixed-used developer in Egypt, with a growing portfolio of commercial and residential projects.

*** Please note that the amount raised remains undisclosed.
